To the Citizens and Board of Directors of the Lakeshore Technical College District

The Annual Comprehensive Financial Report (ACFR) of Lakeshore Technical College District (District, Lakeshore College, Lakeshore, or College) for the fiscal years ended June 30, 2025, is hereby submitted. Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the District. To the best of our knowledge, the enclosed data is accurate and reported in a manner designed to present fairly the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

This report is consistent with legal reporting requirements of the State of Wisconsin, and in our opinion was prepared in conformity with accounting principles generally accepted in the United States of America. In addition to meeting legal reporting requirements, this report is intended to present a comprehensive summary of the significant financial data of the District in a readable format to meet the varying needs of the District's citizens, taxpayers, students, employees, financial institutions, intergovernmental agencies, and the Wisconsin Technical College System.

The District maintains internal controls designed to provide reasonable assurance the District's assets are safeguarded from loss, unauthorized use or disposition and to ensure compliance with established governmental laws, regulations and policies, College policies, and other requirements of those to whom the District is accountable. The internal accounting control structure is designed to provide reasonable, not absolute, assurance these objectives are met.

State law and federal guidelines require an annual audit of the District's financial records. The District has contracted with the independent certified public accounting firm of CliftonLarsonAllen LLP to perform the annual audit of its financial statements and state and federal assistance programs. The Independent Auditors' Report is included in the financial section of this ACFR and reflects an unmodified opinion on the basic financial statements. As a recipient of state and federal awards, the District complies with the requirements of the Single Audit Act, and separate single-audit reports have been issued, which are included in the Single Audit section.

Generally accepted accounting principles require management to provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately following the report of the independent auditors.

## **PROFILE OF THE LAKESHORE TECHNICAL COLLEGE DISTRICT**

Lakeshore College is a public, two-year comprehensive community and technical college located in the rural village of Cleveland, Wisconsin. Lakeshore is locally governed by an appointed nine-member District Board.

In 2024, the Higher Learning Commission (HLC) reaffirmed Lakeshore's accreditation for another decade. The Higher Learning Commission is one of six regional accrediting bodies authorized by the U.S. Department of Education. Lakeshore has been an accredited higher education institution since 1977.

Annually, the district educates more than 9,000 students, with approximately 800 graduates per year. Within six months of graduation, associate degree holders report a median salary of \$61,355. Furthermore, 95% of our graduates express high satisfaction with their education, with 99% securing employment within six months of graduation, predominantly within Wisconsin.

Lakeshore serves as a primary provider of higher education to community residents and a vital supplier of skilled workers to regional industries, thereby enhancing overall workforce productivity. Notably, Lakeshore delivered customized employee training to over 110 companies. Lakeshore demonstrates a commitment to excellence through its focus on workforce preparation, affordability, institutional effectiveness, and responsiveness to community needs. Partnerships in the community, with businesses and with education, both K-12 and post-secondary, are key to building career pathways which help keep the economy strong.

Located in east central Wisconsin, Lakeshore serves a district measuring approximately 1,200 square miles, covering Manitowoc and Sheboygan counties and small portions of Calumet and Ozaukee counties. The primary campus, consisting of five instructional buildings and one facility building on a 154-acre site, is in the Village of Cleveland, Wisconsin, centrally located between the district's two primary city centers, Manitowoc and Sheboygan. In addition to the Cleveland campus, Lakeshore educates students at learning campuses in downtown Manitowoc and downtown Sheboygan, and in various district high schools.

Lakeshore is one of 16 comprehensive community and technical colleges in Wisconsin which operates under the coordination of the Wisconsin Technical College System.

### **Key Accomplishments**

Lakeshore College received formal notification by the Higher Learning Commission that the College's accreditation status has been continued. As a Higher Learning Commission-accredited institution, Lakeshore College must uphold the same high standards of quality and excellence and meet the same rigorous criteria the commission requires of other colleges and universities it governs in the region. The Higher Learning Commission is one of six regional accrediting bodies authorized by the U.S. Department of Education. College accreditation includes approval to offer distance education courses and programs. Lakeshore has been an accredited higher education institution since 1977.

### **PROGRAMMING**

The new Froedtert & Medical College of Wisconsin Center for Health Care Excellence opened the Fall of 2024. The 26,000 square foot health care instructional facility doubles Lakeshore's potential annual training capacity to 1,500 in-demand health care and emergency services students. The Lakeshore College Foundation raised \$3 million for the project, including \$1 million – the largest donation in the college's history – from Froedtert Health and Franciscan Sisters of Christian Charity.

Lakeshore College unveiled its new mobile manufacturing lab in October 2024, making advanced manufacturing training more accessible throughout the community. The state-of-the-art, self-contained training space is available to any organization interested in providing or demonstrating hands-on manufacturing-focused training. Individuals trained in the lab can become certified in 15 industry-relevant

skills in welding, quality assurance, computer numerically controlled machine tooling, and electro-mechanical systems.

The automotive maintenance program at Lakeshore College received Automotive Service Excellence reaccreditation by the ASE Education Foundation. The program has been ASE-accredited for more than 20 years. To achieve ASE accreditation, Lakeshore's automotive maintenance program underwent rigorous evaluation by the ASE Education Foundation. The foundation reviewed nationally accepted standards of excellence in areas such as instruction, facilities, and equipment.

Construction on the expansion of Lakeshore College's on-site dental clinic began in December 2024 with an anticipated completion date of June 2025. Lakeshore secured over \$1.2 million in new funding to support the expansion of the college's dental clinic and the development of an accredited dental hygiene program.

The American Welding Society has certified Lakeshore College has met all requirements to continue operating as an accredited welding test facility in Wisconsin. The college became accredited in 2020 and has since granted 159 AWS certifications to welders from Wisconsin and other states.

## **FUNDING FOR STUDENTS**

Nearly \$300,000 in scholarships was awarded by the Lakeshore College Foundation to 273 students for the Fall 2024 semester. This includes a record number of 54 scholarships covering full tuition and fees. A total of 360 scholarships were awarded.

The Lakeshore College Foundation awarded \$268,000 to Lakeshore College Spring semester students, pushing its total awards for the 2024-25 academic year 81% over the previous year, to \$577,000. The Kohler Foundation Advantage, Richard F. Brindza Memorial, and Adam Steel Fund are the new scholarships that led to the Lakeshore College Foundation more than doubling the number of full-tuition awards to students.

## **Student and District Demographics**

Each year, as the fiscal year draws to a close, student demographic data is reviewed to kickstart the input phase for the forthcoming year's Plan and Budget process. Simultaneously, in the fall, a Year End Report is released, presenting an array of essential data points. This report delves into student demographics, their needs, and requirements, serving as a crucial influence on any adjustments made to the strategic plan and initiatives.

The age distribution of Lakeshore's District reveals the potential number of students Lakeshore can serve within the district. In 2024, the largest age group for the district was 65 and older, which will have the largest increase in the next 10 years across age groups. The largest age group enrolled at Lakeshore was the 25-34 age group for programs (which will see a 3% increase in 10 years), and 15-19 age groups for all course enrollments (which will see a 7% decrease in 10 years).

Men make up slightly more than half of the district's population as of 2024. Last year it was expected for the male gender to increase by 11% in the district. It is now expected to only increase 3%, the same as the female increase.

The majority of the Lakeshore District is White persons. One of the next largest groups is of Asian ethnicity, the fastest growing ethnic group in the United States (Pew Research Center, 2022). In Lakeshore's District, 78% of the Asian ethnic group is Hmong persons. The Lakeshore District has one of the top 10 U.S. cities with the largest density of Hmong populations (Pew Research Center, 2021). With population projected to increase, and the White ethnic group having 0% change, the district is guaranteed to become more ethnically diverse.

In 2024, 40.4% of the county's population stopped their education at or before high school or GED education level, nearly a 10% increase from 2023 of district citizens not attaining a secondary credential.

Wages typically increase with educational attainment. Lakeshore District educational attainment data demonstrates the correlation between increased education and increased wages. Associate and technical degrees can bridge to higher than median wages and additional educational opportunities, particularly for certain programs of study as some positions and industries have higher pay (Inside Higher Education Report, 2022).

Employments rates in the Lakeshore District are high. Unemployment rates saw a slight increase from 2023 to 2024 but remain lower than state and national rates. The district quickly rebounded from the 2021 spike in unemployment from the COVID-19 pandemic, falling below pre-COVID rates in 2022 and continuing that decreased rate. The impact from the pandemic is not as drastic as was previously predicted due in part to federal stimulus relief, labor and skills shortages in the district, and training options offered through Lakeshore.

### **Scope of Educational Offerings**

The College's educational offerings include degree and diploma programs, apprenticeships, incumbent worker training, and Adult Education. Additional student learning opportunities include internships, clinicals, and participation in student clubs, student life activities, and service-learning experiences.

Lakeshore's programs incorporate industry-leading technologies to reflect District employment needs and to provide a base for experiential learning. Students access these technologies through instructor-led hands-on learning. To increase student accessibility, programs are shared with other colleges and courses are offered through flexible learning options. Sixteen programs hold professional certification or specialized accreditation from thirteen entities.

Institutional Learning Outcomes (ILOs) are also integrated within the coursework that students receive. They are a set of skills, abilities, and attitudes obtained, that often mirror the soft skills local employers expect of Lakeshore graduates. Students are presented throughout their coursework with learning opportunities and experiences to gain this knowledge. At Lakeshore, five distinct outcomes are taught and assessed through a student's experience, both inside and outside of the classroom. Those five outcome areas include Communicate Effectively, Demonstrate Critical Thinking, Work Collaboratively, Exhibit Respect for Individuality, and Model Professionalism.

Programs are developed by reviewing the College's data on employment need, cost of the program, and earnable wages. A process of approval, both by the College District Board and the Wisconsin Technical College System, is required. Once a program is implemented, ongoing evaluation of program health and student outcomes is assessed on a yearly basis through the Quality Review Process. If a program is no longer viable, as determined through a comprehensive review process, enrollments are suspended, currently enrolled students are encouraged to complete the program within a specific and reasonable time frame, and appropriate discontinuance is conducted between the College and the Wisconsin Technical College System office.

In addition to meeting the needs of District residents through programs and course offerings, Lakeshore offers courses, workshops, and seminars to meet the needs of business and industry. Lakeshore's Workforce Solutions provides customized training and technical assistance to employers to update employee skills and improve workplace performance. In addition, Workforce Solutions provides comprehensive assessment services to assist employers to develop training plans for employees.

Adult Education instruction is available through Lakeshore's Manitowoc and Sheboygan locations. Adult Education focuses on academic preparation and includes Adult Basic and Secondary Education (ABE/ASE), English Language Learner (ELL), and adult high school credentialing preparation to earn a General Educational Development (GED) certificate or a High School Equivalency Diploma (HSED). Community Education occurs in a variety of locations and focuses on career exploration.

## **Faculty and Staff Base**

Lakeshore employs 488 full- and part-time people within three organizational groups. Full-time employees include 62 nonexempt staff, 66 exempt staff and 87 faculty. Lakeshore also employs approximately 273 part-time staff made up of adjunct faculty, students, part-time nonexempt staff and temporary help. Lakeshore's staff are aligned to functional areas which make up the systems of the college.

## **ECONOMIC CONDITIONS**

### **Local Economy**

Lakeshore promotes economic growth in the district through its direct expenditures and the resulting expenditures of students and regional businesses. The college serves as an employer and buyer of goods and services for its day-to-day operations. Lakeshore is a primary source of higher education to the district residents and a supplier of trained workers to regional industries, enhancing overall productivity in the regional workforce.

### **Competitive Environment**

There are two University of Wisconsin System institutions and one private, not-for-profit university in the Lakeshore community. While these institutions offer educational opportunities, our missions are unique, allowing for partnerships to form.

Lakeshore continues to remain competitive by offering programs which directly feed employees back into our district, supporting the local economy. Through annual refreshes of the facilities, students are always learning on state-of-the-art equipment and using technology which will mimic their workplaces post-graduation. Student success is supported through multiple sources of academic, personal, and financial resources.

## **STRATEGIC PLANNING PROCESS**

Lakeshore College employs a thorough approach which engages both its staff and the community in formulating its strategic plan. The process involves iterative stages of data analysis, ideation, prioritization, validation, and communication.

In 2025, the strategic planning process witnessed the creation of four new strategic areas of focus and aligned belief statements. To facilitate this process, an external consultant was enlisted. Active participation was sought from Lakeshore Board members, employers, community members, students, and employees.

On an annual basis, departments and academic programs strategize their improvements and objectives. Subsequently, support plans, including those for Facilities, Technology, Equipment, Marketing, Human Resources, and Instructional Plans, are devised. These plans align with divisional and individual improvement goals to ensure consistency with the college's strategic focus and direction. Resources are then allocated to sustain targeted strategic enhancements.

**Mission**

Transforms individuals to strengthen our communities through innovative and accessible learning.

**Vision**

The community's driver for individual, social, cultural, and economic vitality.

**Strategic Areas of Focus & Belief Statements**

- Student Success- *Students thrive in a supportive and engaging environment.*
- Quality Education- *Students and communities thrive from high-quality education.*
- Culture of Excellence- *Employees drive excellence when valued, included, and supported.*
- Strategic Innovation- *Dynamic improvements drive our competitiveness and impact.*

## **MANAGEMENT SYSTEMS AND CONTROLS**

Lakeshore is committed to the development of good management systems and controls. Systems are conscientiously developed within which the District's employees can function effectively which provides appropriate levels of supervision and segregation of duties.

### **Internal Controls**

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the College are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management. To enhance internal controls over purchasing, the college has restricted the number of purchasing cards issued to staff and the limits on what those cards can be used for. Signatory authority on contracts has been restricted to the College President or their designee, with contracts routed for approval by appropriate parties before being submitted for signature.

As a recipient of federal, state and local financial assistance, the College is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws, regulations, contracts and grants related to these programs. This internal control structure is subject to periodic evaluation by management and the internal audit staff of the government.

### **Budgetary System**

Lakeshore's annual budget is prepared in accordance with the requirements of the Wisconsin Technical College System Board. These budget requirements include administrative review, public hearings, and passage by the District board prior to June 30<sup>th</sup> of each year. Budgeted amounts are controlled by function within funds, with modification or changes of the approved budget possible upon approval by two-thirds vote of the District board.

Based on strategic priorities, objectives, plans, and budgets are developed. These budgets are then reviewed by budget managers and subsequently submitted in detail to the budget staff. The information is then summarized and analyzed by administration prior to being submitted to the District board for approval. Budget forums are held throughout the budget process to allow staff to learn more and provide feedback. As expenditures occur throughout the year, they are recorded against budgeted amounts. Individual budget managers are responsible for monitoring the budgets along with the budget staff. The District's decentralized approach allows for the reallocation of budgets to meet the needs of the public and still maintain proper stewardship.

### **Independent Audit**

The College's board policy and state law requires an annual audit of Lakeshore's financial statements by an independent certified public accountant. This requirement has been complied with and the independent auditors' opinion is included in this report.

### **Certificate**

Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Lakeshore Technical College District for its annual comprehensive financial report for the fiscal year ended June 30, 2024. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual

comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

### **Acknowledgment**

The preparation of this report on a timely basis was accomplished through the cooperative efforts of the Financial Services Department and other staff, with the assistance of the College's independent auditors, CliftonLarsonAllen LLP. We express our appreciation to our staff for their hours in preparing this report.

## INDEPENDENT AUDITORS' REPORT

To the District Board  
Lakeshore Technical College District  
Cleveland, Wisconsin

### Report on the Audit of the Financial Statements

#### ***Opinions***

We have audited the accompanying financial statements of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the Lakeshore Technical College District (the District or Lakeshore College), as of and for the year ended June 30, 2025 and 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the discretely presented component unit, and the aggregate remaining fund information of the District, as of June 30, 2025 and 2024, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### ***Basis for Opinions***

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions. The financial statements of Lakeshore College Foundation were not audited in accordance with *Government Auditing Standards*.

#### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

***Auditors' Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audits.

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the schedules relating to pensions and other postemployment benefits be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Supplementary Information***

Our audits were conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The individual budgetary basis fund financial statements, and the schedule to reconcile the budget basis financial statements to the basic financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audits of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the individual budgetary basis fund financial statements, and the schedule to reconcile the budget basis financial statements to the basic financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### ***Other Information***

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audits of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

**Other Reporting Required by Government Auditing Standards**

In accordance with *Government Auditing Standards*, we have also issued our report dated December 2, 2025, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

## Lakeshore Technical College District Management's Discussion and Analysis

Lakeshore Technical College District's (District, Lakeshore College, Lakeshore, or College) Management's Discussion and Analysis (MD&A) of its financial condition provides an overview of financial activity, identifies changes in financial position, and assists the reader of the financial statements in focusing on noteworthy financial issues.

While maintaining its financial health is crucial to the long-term viability of Lakeshore, the primary mission of a public institution of higher education is to provide education and training. Therefore, net position is accumulated only as required to ensure that there are sufficient reserve funds for future operations and implementation of new programs.

The MD&A provides summary level financial information; therefore, it should be read in conjunction with the accompanying financial statements.

Lakeshore College Foundation, Inc. (Foundation) is a separate and independent, not-for-profit corporation whose purpose is to solicit, hold, manage, invest and expend endowment funds and other gifts, grants, and bequests for the maintenance and benefit of Lakeshore and its students. The Foundation is managed by an independent board of directors and is not fiscally accountable to the College. The financial resources of the Foundation are significant to the College as a whole and accordingly, the Foundation is reported as a discretely presented component unit in the College's basic financial statements.

The Lakeshore College Foundation, Inc. financial statements can be obtained through Lakeshore Technical College District, 1290 North Avenue, Cleveland, WI, 53015.

### **Statement of Revenues, Expenses, and Changes in Net Position**

The Statement of Revenues, Expenses, and Changes in Net Position presents the revenue earned and the expenses incurred during the year. Activities performed by the College are reported as either operating or non-operating activities. In general, a public college such as Lakeshore will report an operating deficit or loss, as the financial reporting model classifies state appropriations and property taxes, the College's main sources of revenue, as non-operating revenues. The utilization of capital assets is reflected in the financial statements as depreciation, which amortizes the cost of an asset over its expected useful life.

The following is a reformatted version of the Statement of Revenues, Expenses, and Changes in Net Position:

**Operating revenues** are the charges for services offered by the College. During 2025, the College generated \$11.3 million of operating revenue. This is an increase of \$360,000 from 2024, or 3%, compared with a decrease of \$524,000 or 5% in 2024.

Significant changes in operating revenue for the years ended June 30, 2025 and 2024 are as follows:

- Program, material and other fees charged to students for attending courses increased by \$532,000 or 12% in 2025, compared to a decrease of \$17,000, or 0.4% in 2024. The District experienced a 2.5% increase in student FTEs (full-time equivalents) for 2025 and a 5.3% decrease in 2024. Program fee rates for the 2025 and 2024 school years increased by 2.3% and 1.9%, respectively.
- Federal and state grant operating revenue for specific purposes, including financial aid payments to students, totaled \$3.0 million for 2025 and saw a decrease of \$340,000, or 10%. State grant operating revenue decreased \$198,000 in 2025 due to various state grants ending, and federal grant operating revenue decreased \$142,000 due to U.S. Department of Education *Strengthening Institutions* grant funding. In 2024, federal and state grant operating revenue was \$3.4 million, a decrease of \$77,000 or 2% from 2023. State grant operating revenue decreased \$159,000 in 2024 due to various state grants ending, and federal grant operating revenue increased \$82,000 due to U.S. Department of Education *Strengthening Institutions* grant funding.
- Auxiliary enterprise revenues, including revenues generated by the bookstore, food service, childcare, and other instructional related activities, decreased \$6,000, or 0.8%, in 2025 while 2024 had a decrease of \$321,000 or 29%. The decrease in 2024 is due to a decrease in WILM consortium activity and a shift in college funding.
- Contract revenues result from customized training to business and industry as well as local school districts. Contract revenues decreased by \$13,000 or 0.7% in 2025 due to a decrease in business and industry contracts and decreased \$247,000 or 12% in 2024 due to a decrease in high school contracts.

The following is a graphical illustration of operating revenues by source for the fiscal year ended June 30, 2025.

### 2025 Operating Revenues

The graph below depicts the comparison between 3 years of operating revenues:

**Non-operating revenues** are revenue items not directly related to providing instruction. Non-operating revenues were \$34.6 million for 2025, \$34.4 million for 2024 and \$37.0 million for 2023.

The most significant components of non-operating revenues for the years ended June 30, 2025 and 2024 include the following:

- Property tax revenue for 2025 increased \$280,000 or 2%, compared to an increase of \$386,000 or 3%, in 2024. Equalized values of property in the District increased by 9% for 2025 and 14% for 2024.
- State operating appropriations for the College increased \$296,000 or 2% in 2025 due to an increase in personal property aid. This compares to a decrease of \$418,000 or 3% in 2024 due to a decrease in formula-based funding. Property tax relief aid remained flat in 2025 and 2024. General state aids, or formula-based funding, increased \$89,000 or 6% in 2025 and decreased \$510,000 or 27% in 2024. The outcomes-based funding portion of general state aids increased by \$14,000 or 1% in 2025 and increased by \$89,000 or 7% in 2024.
- Other federal financial assistance for 2025 in the amount of \$3.5 million decreased \$207,000 or 6% from 2024 due to COVID relief funding coming to an end (see *Impact of the Spread of COVID-19* on page 27 for additional information). Other federal financial assistance for 2024 decreased \$3.2 million or 46% from 2023 due to COVID relief funding coming to an end.
- Interest income, net of fees increased \$32,000 or 2% in 2025 and increased \$630,000 or 83% in 2024. The weighted average interest rate on investments decreased from 2.83% in 2024 to 2.41% in 2025. For 2025, the District saw a realized and unrealized loss on investments of \$85,000. This compares to the realized and unrealized gain on investments of \$99,000 for 2024 and realized and unrealized gain on investments of \$111,000 for 2023. It is the intention of the College to hold its investments until maturity or until the fair value improves.

**Operating expenses** are costs related to offering the programs of the College. During 2025, operating expenses totaled approximately \$43.7 million. This represents an increase of \$3.4 million or 9%, compared to a decrease of \$4.4 million or 10% in 2024. The increase in 2025 is largely due to an increase in student aid, contracted services and benefits expense. In addition, operating expenses in 2024 and 2023 fluctuated due to COVID-related grant spend and college activities returning to pre-COVID levels (see *Impact of the Spread of COVID-19* on page 27 for additional information). The majority of the operating expenses, about 59%, are for salary and benefits. Other major types of expenses include supplies, printing and minor equipment (4%), contract services (8%), student aid (6%) and depreciation (16%). Expenses such as travel, insurance, utilities and other expenses account for the remaining 7% of total operating expenses.

Significant changes in operating expenses for the years ended June 30, 2025 and 2024 are as follows:

- Direct costs (instruction, instructional resources and student services) increased \$441,000 or 2% in 2025 due to an increase in benefit expense. Direct costs for 2024 decreased \$4.5 million or 16% due to a decrease in benefit expense and grant spend.
- General institutional and physical plant expenses were \$8.9 million for 2025, \$7.7 million for 2024 and \$7.7 million for 2023. The increase in 2025 is due to an increase in benefit costs and contracted services spend.
- Auxiliary enterprise services expenses increased \$443,000 or 58% in 2025 due to an increase in spend related to the college's strategic investment in rebranding and the domain name change. These expenses decreased \$184,000 or 19% in 2024 due to a decrease in WILM activity.
- Student aid increased by \$958,000 or 55% in 2025 and increased by \$80,000 or 5% in 2024 due to an increase in Pell awards.

The following is a graphical illustration of operating expenses by function for the fiscal year ended June 30, 2025.

The graph below shows the comparison of operating expenses for the last three fiscal years.

**Non-operating expenses** are expense items not directly related to providing instruction. Non-operating expenses increased \$4.0 million or 481% in 2025 due to the write-down of ERP implementation costs. Non-operating expenses increased \$44,000 or 6% in 2024. Interest expense of \$944,000, \$838,000, and \$794,000 was recognized for 2025, 2024 and 2023, respectively.

### Statement of Cash Flows

The Statement of Cash Flows presents information related to cash inflows and outflows, summarized by operating, capital, financing and investing activities. This statement is important in evaluating the College's ability to meet financial obligations as they mature.

The following schedule summarizes the major components of the Statement of Cash Flows:

	2025	2024	Increase/(Decrease)		2023
			\$	%	
Cash flows from operating activities	\$ (24,705,718)	\$ (21,760,574)	\$ (2,945,144)	-13.5%	\$ (27,972,980)
Cash flows from non-capital financing activities	32,919,039	32,825,409	93,630	0.3%	35,901,117
Cash flows from capital & related financing activities	(8,837,717)	(12,595,848)	3,758,131	29.8%	(5,964,667)
Cash flows from investing activities	1,338,210	2,196,382	(858,172)	-39.1%	877,955
Net increase in cash & cash equivalents	\$ 713,814	\$ 665,369	\$ 48,445	7.3%	\$ 2,841,425

- **Cash flows from operating activities** decreased \$2.9 million or 14% in 2025, compared to an increase of \$6.2 million or 22% in 2024, due to the following:
  - ✓ Payments to employees of \$25.1 million in 2025, \$25.8 million in 2024, and \$26.9 million in 2023 made up the largest portion of the cash flows from operating activities.
  - ✓ Payments to suppliers for 2025 increased \$3.4 million or 45%, compared to a decrease of \$5.0 million or 40% in 2024. The fluctuation year over year is due to grant spend.
  - ✓ Tuition and fees received from students for services were approximately \$4.9 million in 2025, \$4.0 million in 2024, and \$4.3 million in 2023.
  - ✓ Federal and state grants received decreased \$1.2 million or 28% in 2025 compared to an increase of \$903,000 or 26% in 2024.
  - ✓ Business, industry, and school district contract revenues received decreased \$110,000 or 6% for 2025 and decreased \$321,000 or 15% in 2024.
- **Cash flows from non-capital financing activities** consist primarily of property taxes, state appropriations received, and other federal financial assistance and increased \$94,000 or 0.3% in 2025 and decreased \$3.1 million or 9% in 2024 due to a decrease in COVID-related federal funding.
- **Cash flows from capital and related financing activities** are primarily purchases of capital assets and capital related debt activity (debt proceeds and principal and interest payments). For 2025 there were cash outflows of \$8.8 million, and for 2024 and 2023 there were cash outflows of \$12.6 million and \$6.0 million, respectively.
  - ✓ Debt proceeds were \$5.3 million in 2025 and \$7.3 million and \$4.3 million in 2024 and 2023, respectively. Principal payments on capital debt were \$6.6 million in 2025 and were \$6.2 million in both 2024 and 2023.
  - ✓ Purchases of capital assets for 2025 amounted to \$7.8 million, compared to \$13.2 million in 2024 and \$6.3 million in 2023. Expenditures for 2025 include Dental Hygiene lab remodel (\$935,000), elevator and staircase replacements (\$1.1 million), Atrium remodel (\$314,000); buildings, general remodeling and infrastructure improvements (\$939,000), Driving Skills Course improvements (\$232,000); general site work (\$228,000) (ERP implementation costs (\$276,000) and equipment purchases (\$2.7 million). Expenditures for 2024 include Center for Healthcare Excellence addition and remodel (\$5.1 million), elevator and staircase replacements (\$282,000), general remodeling and infrastructure improvements (\$427,000), ERP implementation costs (\$3.9 million) and equipment purchases (\$3.7 million).

The District had a net increase in total cash & investments of approximately \$714,000 for 2025 compared to a net increase of \$665,000 for 2024 and a net increase of \$2.8 million in 2023.

## Statement of Net Position

The Statement of Net Position presents information on all the College's assets, liabilities, and its deferred inflows/outflows of resources, with the difference reported as net position. Over time, increases or decreases in net position may serve as an indicator of whether the financial position is improving or deteriorating.

Following are highlights of the components of the Statement of Net Position:

	2025	2024	Increase/(Decrease)		2023

Total assets decreased \$1.5 million or 2% in 2025 and increased \$5.5 million or 7% in 2024.

- Capital assets are the largest component of the College's assets. For 2025, net capital assets decreased \$3.1 million or 7%, compared to an increase of \$7.5 million or 21% in 2024. The decrease in 2025 is due to the write down of ERP implementation costs. In 2024, the College completed the Center for Healthcare Excellence addition and remodel project and incurred costs related to an ERP implementation.
- Receivables include property taxes, student accounts, leases, and federal and state aids. Property tax receivable amounted to \$3.3 million in 2025, \$3.0 million in 2024 and \$3.0 million in 2023. Payment on the balance of property tax receivable is typically received by the end of August for that year. Student accounts receivable (net of bad debt reserve) increased during 2025 by approximately \$616,000, or 20%, and increased by \$341,000, or 13%, in 2024. Federal and state aid receivable increased \$218,000, or 22% for 2025 due to timing of state grant claims, and decreased by \$645,000, or 39%, in 2024 largely due to changes in the HEERF assistance receivable (see *Impact of the Spread of COVID-19* on page 27 for additional information). Lease receivable decreased by \$253,000, or 6%, in 2025 and decreased by \$244,000, or 6%, in 2024.

- Cash and investments increased \$714,000, or 2%, in 2025 and decreased \$40,000, or 0.1%, in 2024. The timing and amount of borrowings and expenditures for capital projects has a big impact on the change in cash and investment balances each year.
- Deferred outflows related to pensions were \$8.5 million for 2025, \$13.1 million for 2024 and \$21.1 million for 2023. Deferred outflows related to OPEB were \$1.3 million for 2025 compared to \$1.8 million for 2024 and \$1.2 million for 2023.
- Current liabilities include accounts payable, payroll and related liabilities, unearned revenue, the current portion of other postemployment benefits, the current portion of the lease and subscription liabilities and the current portion of long-term debt.
  - ✓ The current portion of general obligation notes payable makes up the largest portion of current liabilities and increased \$185,000 or 4% in 2025 and increased \$275,000 or 6% in 2024.
  - ✓ Unearned student fees increased \$484,000 or 27% in 2025. This compares to a decrease of \$123,000, or 6%, in 2024. Other unearned revenue amounted to \$11,000 for 2025 and was \$14,000 in 2024 and \$11,000 in 2023.
  - ✓ Accounts payable decreased \$689,000 or 46% in 2025 and increased \$266,000 or 22% in 2024. The fluctuation in both years is due to the timing of capital expenditures.
  - ✓ Accrued payroll decreased \$60,000 or 16% in 2025 and decreased \$109,000 or 22% in 2024. Accrued payroll will fluctuate based on changes in wages and teacher hours for summer school and the timing of payments for spring term instruction.
- Non-current liabilities of \$34.5 million for 2025, \$35.6 million for 2024, and \$38.1 million for 2023 consist mainly of the long-term debt due after the next fiscal year.
  - ✓ The College issued \$5.3 million, \$7.3 million and \$4.3 million in general obligation debt in 2025, 2024 and 2023, respectively, to finance equipment, general remodeling, additions and site improvements as laid out in its master facility plan. Payments on this debt were \$5.3 million in 2025 and \$5.1 million in 2024 and \$5.2 million in 2023.
  - ✓ The college recognized a lease liability of \$2.3 million for 2025 which was a decrease of \$516,000 or 18% from 2024 and a lease liability of \$2.8 million in 2024 which was a decrease of \$514,000 or 15% from 2023. Payments on the total lease liability were \$514,000 for 2025 and \$567,000 for 2024.
  - ✓ Long-term liabilities also include a net pension liability of \$1.6 million for 2025, \$1.6 million for 2024 and \$5.8 million for 2023, an OPEB liability of \$1.5 million for 2025, \$2.0 million for 2024 and \$1.6 million for 2023 and a subscription liability in the amount of \$314,000 for 2025 and \$239,000 and \$481,000 for 2024 and 2023, respectively.
- Deferred inflows related to pensions were \$4.6 million for 2025, \$8.3 million for 2024 and \$12.2 million for 2023. Deferred inflows related to OPEB were \$137,000 for 2025, \$57,000 for 2024 and \$71,000 for 2023. Deferred inflows related to leases were \$3.9 million for 2025, \$4.1 million for 2024 and \$4.4 million for 2023.
- In 2025, net position decreased \$1.3 million or 3% and during 2024 net position increased \$4.5 million or 11%.
  - ✓ Net investment in capital assets decreased \$2.4 million or 13% in 2025. This compares to an increase of \$2.4 million or 15% in 2024. Unexpended debt proceeds were \$13.1 million in 2025 and \$12.9 million in 2024. Purchase orders outstanding to be financed from unexpended debt proceeds amount to \$55,000 in 2025 and \$122,000 in 2024.

- ✓ Net position restricted for debt service increased \$191,000 or 11% in 2025 and increased \$352,000 or 24% in 2024.

The following graph shows a comparison of the College's statement of net position by the major category for the last three fiscal years.

### Capital Assets and Debt Administration

The District's investment in capital assets, net of depreciation and amortization, as of June 30, 2025 was \$40,483,000 and as of June 30, 2024 was \$43,539,000. This investment includes land, land improvements, buildings, building improvements, lease assets (right to use), subscription assets (right-to-use) and fixed and moveable equipment. In order to better meet today's educational needs, the College is continually replacing and updating assets when their useful lives have expired in order to keep current with technology and to have well-maintained facilities. Additional information about the College's capital assets can be found in Note 3 of the Notes to Financial Statements.

As of June 30, 2025, the District had total general obligation debt outstanding of \$32,900,000, compared to \$32,855,000 at the end of 2024 and \$30,635,000 at the end of 2023. The College's notes are assigned Moody's Investor Service Aa1 rating, and the College continues to meet all its debt service requirements, including timely repayment of its debt. All debt issuances for equipment, building and land improvements are repaid in seven to ten years. Additional information about the District's debt can be found in Note 4 of the Notes to Financial Statements.

## **Financial Position**

The District saw a decrease of \$1.3 million in its net position during the year ended June 30, 2025. Cash and investments as of June 30, 2025 remained strong at \$33.2 million compared to \$32.5 million as of June 30, 2024 and \$32.5 million as of June 30, 2023. Total liabilities were \$45.7 million in 2025, \$47.1 million in 2024, and \$49.3 million in 2023.

The District has diversified sources of revenues consisting of property taxes, state aid, student fees, federal and state grants, and other sources to meet the expenses of the College. With a diversity of revenues, a stable tax base, and a strong net position, The District will continue to have the resources to adequately finance normal enrollment in the future.

## **Economic Factors**

### ***Impact of the Spread of COVID-19***

The Coronavirus Aid, Relief, and Economic Security Act (the "CARES Act") provided for federal payments from the Higher Education Emergency Relief Fund to higher education institutions to defray the institutions' expenses, including lost revenue and payroll for employees and to make emergency financial aid grants to students for expenses related to the disruption of campus operations due to the COVID-19 pandemic. The District received an allocation of \$977,816 from the Higher Education Emergency Relief Fund (HEERF) in the CARES Act. Half of this amount, \$488,908, was available to the District and the other half was required to be used to provide emergency aid to students enrolled. The District also received \$49,014 from CARES Title III SIP funding. In addition, on June 17, 2021, Governor Evers announced allocations to higher education institutions in the State from the Governor's Emergency Education Relief Fund ("GEER Fund") established under the CARES Act. The District received an allocation from the GEER Fund of \$195,739, which could be used to reimburse necessary, unbudgeted expenses made in response to COVID-19. On December 27, 2020, former President Trump signed the Coronavirus Response and Relief Supplemental Appropriations Act (CRRSAA or the "Supplemental Appropriations Act"), which included an additional \$22.7 billion to be allocated to higher education to address costs related to the COVID-19 pandemic. The District's allocation under the Supplemental Appropriations Act was \$2,597,047, including an institutional allocation of \$2,108,139 and a student aid component of \$488,908. The District also received \$108,478 from CRRSAA Title III SIP funding. On March 11, 2021, President Biden signed the American Rescue Plan Act of 2021 ("ARPA"). The District's allocation under ARPA is \$4,514,255, including an institutional allocation of \$2,208,989 and a student aid component of \$2,305,266. The District also received \$196,962 from ARPA Title III SIP funding.

### ***Other Economic Factors***

Although the District has a strong financial position, there are some financial factors that do have the potential to negatively affect the College:

- The College is aware that we are entering a time where enrollments will decline due to fewer K-12 students, competition from businesses as workers become harder to replace, and other demographic changes. The college continues to strive to grow enrollments and has implemented strategic initiatives to improve retention and grow enrollments. The College saw an increase in enrollment of 2.4% in 2025 and enrollment decreases of 5.3% and 6.6% in 2024 and 2023, respectively, based on full-time equivalents.
- The College continues to feel the impact of legislation that limits its ability to levy taxes and receive state aids. Changing funding levels, state aid amounts that will never increase and unfunded mandates of the state and federal government continue to make it challenging for the college to balance its budget.
- While the legislation enacted in fiscal 2022 and 2015 that shifted a large portion of the College's funding from local tax levy to state aid included a mechanism to restore the levy if state funding

was ever reduced, the College is aware of the negative impact a subsequent levy increase could have.

- In order to reduce the impact of recognizing and funding the other post-employment benefits liability, the College modified its benefit package for new hires. This change to the benefit package could result in increased competition for new hires.

Even with these challenges in mind, the District is confident that its long-term financial planning will allow it to effectively meet the financial needs of future operations. The District's current financial position is positive, and it is positioned to maintain this positive status into the future.

- As employers continually change technology and processes to remain competitive, the College responds with new programs and customized training options that are essential in preparing the local workforce.
- The College's main campus includes state-of-art facilities for all instructional divisions.
- The College is striving to be the #1 school of choice for graduating high school seniors, serving as a cost-effective choice for more students as the cost of higher education rises and student debt levels increase. During 2019, the College launched its College Here and Now program, a college/career pathway that makes it possible for Sheboygan Area school district students to have the ability to earn their Lakeshore associates degree at the same time they receive their high school diploma. Since then, the College Here and Now program has expanded to additional K-12 school districts.
- The recent relocations of Lakeshore Manitowoc, Lakeshore Sheboygan and the culinary and agriculture programs allow for the placement of services in areas that are easier for students to access. In addition, the moves allow for right-sizing of facilities, upgrades to interiors and equipment, and long-term cost savings.
- In staying true to its mission and values, the College continues to focus on student success through increased access to services and education, coordinated services, and continued efforts to implement strategies to improve retention and transition.
- Lakeshore has a beautiful campus that is located centrally within its district. The College is well respected in the community for its educational offering. As a result, it is attractive as an educational resource for people looking for training.

## NOTES TO FINANCIAL STATEMENTS

June 30, 2025 and 2024

---

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

---

Lakeshore Technical College District (District, Lakeshore College, Lakeshore, or College) is organized under state legislation enacted in 1911 establishing vocational, technical and adult education. Lakeshore College was legally organized on July 1, 1967, under the provisions of Chapter 292, Laws of Wisconsin 1965. Upon the time of reorganization on July 1, 1967, the major schools in Manitowoc, Sheboygan and Two Rivers were merged into the Lakeshore District. The original boundaries of the District were composed of Manitowoc County less the portion of Chilton, Brillion, and Denmark school districts that lie in Manitowoc County; Sheboygan County less the portion of the New Holstein school district that lies in Sheboygan County; plus the portion of the Cato school district that lies in Calumet County; and on July 1, 1970, the Cedar Grove and Random Lake school districts in Ozaukee County were attached to the District.

Lakeshore is one of 16 districts in the Wisconsin Technical College System (WTCS). The governance of the College is shared between the Lakeshore College Board of Trustees (District Board or Board) and the Wisconsin Technical College System Board (WTCSB).

The District Board consists of nine members, of whom two are employers; two are employees, one district school administrator, one elected official, and three additional members. By state statute, the county board chairpersons of the respective counties within the district appoint District board members. The Board powers are established under the provisions of Chapter 38 of the Wisconsin Statutes and include:

- Authority to borrow money and levy taxes;
- Budgetary authority; and
- Authority over other fiscal and general management of the District which includes, but is not limited to, the authority to execute contracts, to exercise control over facilities and properties, to determine the outcome or disposition of matters affecting the recipients of the services being provided, and to approve the hiring or retention of key management personnel who implement Board policy and directives.

The accounting policies of the District conform to generally accepted accounting principles as applicable to public colleges and universities as well as those prescribed by the WTCSB.

#### A. REPORTING ENTITY

GASB Statement No. 61, *The Financial Reporting Entity: Omnibus*, requires reporting, as a component unit, an organization that raises and holds economic resources for the direct benefit of a governmental unit.

Lakeshore College Foundation, Inc. (Foundation) is a separate and independent, not-for-profit corporation whose purpose is to solicit, hold, manage, invest and expend endowment funds and other gifts, grants, and bequests for the maintenance and benefit of Lakeshore and its students. The Foundation is managed by an independent board of directors and is not fiscally accountable to the College. The financial resources of the Foundation are significant to the College as a whole and accordingly, the Foundation is reported as a discreetly presented component unit in the College's basic financial statements.

The Lakeshore College Foundation, Inc. financial statements can be obtained through Lakeshore Technical College District, 1290 North Avenue, Cleveland, WI 53015.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

---

#### A. REPORTING ENTITY (continued)

The District has a fiduciary responsibility in establishing broad policies and ensuring that appropriate financial records are maintained for the Wisconsin Technical College System's Career and Technical Student Organization (CTSO) which includes financial activity for Business Professionals of America, SkillsUSA, and Professional Agricultural Student (PAS) organizations, along with some administrative activities. Accordingly, the Career and Technical Student Organization's accounts are excluded from the District's activities and are reported as fiduciary activities in these financial statements.

#### B. MEASUREMENT FOCUS, BASIS OF ACCOUNTING AND FINANCIAL STATEMENT PRESENTATION

For financial reporting purposes, the District is considered a special purpose government engaged only in business-type activities. Accordingly, the District's basic financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the years for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. All significant inter-district transactions have been eliminated.

Fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as described previously in this note. Since fiduciary fund assets are being held for the benefit of a third party and cannot be used for activities or obligations of the District, these funds are excluded from the District-wide statements. The District has custodial funds held for the Career and Technical Student Organizations (CTSO) group in fiscal year 2025 and 2024.

#### C. ACCOUNTING ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires District management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

#### D. CASH AND INVESTMENTS

Cash and investments of the District are combined in the financial statements. Cash deposits consist of demand and time deposits with financial institutions and are carried at cost. Investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. For purposes of the statement of cash flows, all cash deposits and highly liquid investments (including restricted assets) with an initial maturity of three months or less from date of acquisition are considered to be cash equivalents.

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

#### E. PROPERTY TAX LEVY AND TAXES RECEIVABLE

The District's property taxes are levied on or before October 31 on the equalized valuation as of the prior January 1. Property taxes are recognized as revenue in the year they are levied. Under Wisconsin law, personal property taxes and certain installment real estate taxes are collected by city, village, and town treasurers or clerks who then make settlements with other taxing units, such as the county, the technical college districts and local schools. Settlements are due from the municipality by the 15<sup>th</sup> of the month following the due date based upon the municipality's payment plan. Certain installment real estate taxes and delinquent taxes are collected by the county treasurers who then make settlement with the city, village, and town treasurers and other taxing units before retaining any for county purposes. In practice, delinquent real estate taxes are withheld from the counties share. The first settlement is due January 15, and the last settlement is due August 15.

The District receives the majority of its property tax levy from municipalities by June 30 of the fiscal year for which the property taxes were levied. However, a portion of property tax revenue is received after year-end because the final installments of real estate taxes and delinquent taxes can be paid by taxpayers after June 30. The county treasurers, acting as collection agents for the District, are required by law to settle all tax amounts due to the District on or before August 20, the final tax settlement date, following the District's year end. Such settlement represents 100% of the tax levy and the counties assume responsibility for any delinquent property real estate taxes.

The following dates are pertinent to the District's tax calendar:

Levy date	October 31, or within 10 days of receipt of equalized valuation, whichever is later
Tax bills mailed	Month of December
Lien date	Month of December
Payments:	
Taxes paid in one installment	January 31
Taxes paid in two installments	
First installment due	January 31
Second installment due	July 31

State legislation restricts increases to operating levies to the amount of district-wide valuation changes due to net new construction in the previous calendar year. Net new construction can be a positive number even when overall district values decline. For the taxes levied and collected in 2025, the increase in operating levy allowed due to net new construction for the District was 1.1683%. For the taxes levied and collected in 2024 the allowed increase was 1.4390%. In addition, levies can be increased for operations by any amount subject to district-wide referendum approval. There is no legislative restriction for the amount levied for debt service. During the fiscal years ended June 30, 2025 and 2024, the District levied and collected taxes as follows:

	2025			2024		
	Mill Rate	Levy Amount	% Change in Levy	Mill Rate	Levy Amount	% Change in Levy
Operating levy	\$0.29524	\$ 7,225,008	3.11%	\$0.31151	\$ 7,006,827	3.42%
Debt service levy	0.24926	6,100,000	3.39%	0.26230	5,900,000	0.00%
Total property tax levy	<u>\$0.54450</u>	<u>\$ 13,325,008</u>	<u>3.24%</u>	<u>\$0.57381</u>	<u>\$ 12,906,827</u>	<u>1.83%</u>

### NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

---

#### F. RECEIVABLES

Student receivables, covering tuition and fees, textbooks, and other receivables for services provided, are valued at net of the estimated uncollectible amounts. The lease receivable represents the present value of lease payments anticipated to be received during the lease term and there are no adjustments for uncollectible amounts.

#### G. INVENTORIES

Inventories include items held for resale and are valued at the lower of cost or market with cost determined on the first in, first out basis. The cost of inventory items is recorded as an expense at the time of consumption.

#### H. PREPAID EXPENSES

Prepaid expenses represent payments made by the District for which benefits extend beyond the end of the current fiscal year end and are expensed in the periods benefitted.

#### I. CAPITAL ASSETS

Capital assets include land, buildings, and equipment. Capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated acquisition value on the date donated. The costs of maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are charged to operations as incurred. Equipment assets having a cost of \$5,000 or more per unit and building and remodeling projects of \$15,000 or more are capitalized. Depreciation on buildings and equipment is provided in amounts sufficient to align the cost of the depreciable assets to operations on the straight-line basis over the estimated service lives, which range from five to twenty years for equipment and remodeling and fifty years for buildings. Intangible right-to-use assets are amortized on a straight-line basis over the remaining life of the asset.

#### J. DEFERRED OUTFLOWS/INFLOWS OF RESOURCES

Deferred outflows of resources are a consumption of net assets by the government that is applicable to a future reporting period. Deferred inflows of resources are an acquisition of net assets by the government that is applicable to a future reporting period. The recognition of those outflows and inflows as expenses and revenues are deferred until the future periods to which the outflows and inflows are applicable.

#### K. COMPENSATED ABSENCES

The liability for compensated absences reported in the basic financial statements consists of leave that has not been used that is attributable to services already rendered, accumulates and is more likely than not to be used for time off or otherwise paid in cash or settled through noncash means. The liability also includes amounts for leave that has been used for time off but has not yet been paid in cash or settled through noncash means and certain other types of leave.

District employees are granted vacation in varying amounts, based on length of service. Vacation pay and related social security taxes are accrued when earned. District employees are allowed to accumulate only the amount of vacation they earn in a year. In the event of retirement, resignation or termination, payout of vacation earned is limited to the annual vacation earnings and only paid if the proper notification period is

given (14 calendar days for nonexempt and 28 calendar days for exempt employees). The District's accrued vacation liability as of June 30, 2025 was \$411,000 compared with \$353,000 as of June 30, 2024.

The District employees' unused portion of sick leave is allowed to accumulate to a maximum of 110 days for instructors and 120 days for management and support staff but is lost upon retirement, resignation, or termination. Accumulated sick leave balances are not more than likely to be used for time off, therefore, accumulated unpaid amounts are not accrued.

#### L. PENSION AND POST-EMPLOYMENT BENEFITS

*Pension.* The fiduciary net position of the Wisconsin Retirement System (WRS) has been determined using the flow of economic resources measurement focus and accrual basis of accounting. This includes for purposes of measuring the following:

- Net Pension Liability (Asset),
- Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions,
- Pension Expense (Revenue).

Information about the fiduciary net position of the WRS and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. Information about the fiduciary net position of the WRS and additions to/deductions from WRS' fiduciary net position have been determined on the same basis as they are reported by the WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

*Other Postemployment Benefits Other Than Pensions.* Qualifying faculty and administrative staff are provided with other postemployment benefits. The OPEB is a single employer defined benefit plan administered by the District. For purposes of measuring the OPEB liability, related deferred outflows and inflows and OPEB expense, the District has used values provided by their actuary as the OPEB plan does not prepare separate financial statements. Benefit payments are recognized when due and payable in accordance with the benefit terms.

#### M. LEASE AND SUBSCRIPTION ASSET LIABILITY – RIGHT TO USE

The lease and subscription asset liabilities represent the District's financial obligation for the remaining payments required by leases and subscription-based information technology agreements, discounted to present value.

#### N. RISK MANAGEMENT

##### District Mutual Insurance Company (DMI)

The sixteen Wisconsin Technical College System (WTCS) colleges created Districts Mutual Insurance Company (DMI). DMI is a fully-assessable mutual company authorized under Wisconsin Statute 611 to provide property, casualty, and liability insurance and risk management services to its members. The scope of insurance protection provided by DMI is broad, covering property at \$500,000,000 per occurrence; general liability, auto, educators' legal liability, and incidental medical malpractice (students in practicum)

at \$5,000,000 per occurrence, cyber risk at \$3,000,000 aggregate, equipment breakdown at \$100,000,000 aggregate, and workers' compensation at the statutorily required limits.

At this time, settled claims have not approached the coverage limits as identified above. The District's exposure in its layer of insurance is limited to \$5,000 to \$100,000 per occurrence depending on the type of coverage and DMI purchases reinsurance for losses in excess of its retained layer of coverage.

DMI operations are governed by a five-member board of directors. Member colleges do not exercise any control over the activities of DMI beyond election of the board of directors at the annual meeting. The board has the authority to adopt its own budget, set policy matters, and control the financial affairs of the company.

Each member college was originally assessed an annual premium that included a contribution component to establish reserves for the company. Current premiums are based on relevant rating exposure bases as well as the historical loss experience by members. DMI's ongoing operational expenses, other than loss adjustment expenses, are apportioned pro rata to each participant based on equity interest in the company.

For the years ended June 30, 2025 and 2024, the District paid insurance premiums of \$277,098 and \$266,907 respectively, to DMI.

The audited DMI financial statements can be obtained through Districts Mutual Insurance Co., 212 West Pinehurst Trail, Dakota Dunes, SD, 57049.

#### Supplemental Insurance

The Wisconsin Technical College Insurance Trust (Trust) is an organization formed under Section 66.0301 of the Wisconsin Statutes and governed by a board of trustees consisting of trustees/employees from each college. The purpose of this Trust is to make available to the 16 districts a collaborative group insurance program. The benefits include savings in insurance premium costs and broader coverage.

The WTCS Insurance Trust has purchased the following levels of coverage for its participating members:

*Crime/employee dishonesty:* \$750,000 limit with \$10,000 deductible Employee Theft, Forgery or Alteration, Inside the Premises – Theft of Money and Securities, Inside the Premises – Robbery or Safe Burglary of other Property, Outside the Premises, Computer Fraud, Funds Transfer Fraud, Money Orders and Counterfeit Money and Credit, Debit or Charge Card Forgery. \$100,000 limit with \$25,000 deductible for Impersonation Fraud.

*Business travel accident:* Coverage for local board of director members. \$2,500,000 aggregate, \$250,000 associated principal sum (coverage) for hazard.

The District paid supplemental insurance premiums of \$2,481 and \$2,474 for the years ended June 30, 2025 and 2024.

The Trust financial statements can be obtained through Lakeshore College, 1290 North Avenue, Cleveland, WI, 53015.

#### Wisconsin Technical College Employee Benefits Consortium (WTCEBC)

As of July 1, 2016, the District joined together with other WTCS colleges in the State to form the Wisconsin Technical College Employee Benefits Consortium (WTCEBC). WTCEBC is a public entity risk pool that the

District participates in to provide health insurance coverage to its employees. The main purpose of WTCEBC is to jointly self-insure certain risks up to an agreed upon retention limit and to obtain excess catastrophic coverage and aggregate stop-loss reinsurance over the selected retention limit. The District pays WTCEBC a monthly premium based on the number of participants and the type of coverage that has been elected. Individual claims below \$100,000 are self-funded by the District. Any individual claim exceeding \$100,000 but less than \$250,000 is shared in a pooled layer among all the colleges participating in the consortium. Individual claims exceeding \$250,000 and aggregate claims exceeding \$1,000,000 are subject to reinsurance.

As of June 30, 2025 and 2024, the District had a net asset in the amount of \$2,557,629 and \$2,561,141, respectively, with the consortium. The net asset is reported in the prepaid and other assets line in the Statement of Net Position.

The WTCEBC audited financial statements can be obtained through Western Technical College, 400 7<sup>th</sup> Street North, La Crosse, WI, 54601.

#### O. FEES AND TUITION

Fees and tuition are recorded as revenue in the period in which the related activity or instruction takes place. Revenues for the summer semester are prorated based on weeks occurring before and after June 30.

#### P. STATE AND FEDERAL REVENUE

The District receives state aid and funding from various federal and state contracts and grants. These revenues are earned as expenditures are incurred. Such expenditures may be incurred during the grantor's fiscal period, which may be different from that of the District's fiscal period and are subject to the Federal Single Audit Act and State Single Audit Guidelines.

#### Q. UNEARNED REVENUES

Unearned revenues include amounts received or invoiced for tuition and fees and other fees prior to the end of the fiscal year but related to the subsequent accounting period.

#### R. SCHOLARSHIP ALLOWANCE AND STUDENT AID

Financial aid to students is reported in the financial statements under the alternative method, as prescribed by the National Association of College and University Business Officers (NACUBO). Certain aid (loans, funds provided to students as awarded by third parties and Federal Direct Lending) is accounted for as third-party payments (credited to the student's account as if the student made the payment). All other aid is reflected in the financial statements as operating expenses or scholarship allowances, which reduce revenues. The amount reported as operating expenses represents the portion of aid that was provided to the student in the form of cash. Scholarship allowances represent the portion of aid provided to the student in the form of reduced tuition. Under the alternative method, these amounts are computed on a total College basis by allocating the cash payments to students, excluding payments for services, on the ratio of all aid to the aid not considered to be third party aid.

#### S. CLASSIFICATION OF REVENUES AND EXPENSES

The District has classified its revenues and expenses as either operating or non-operating according to the following criteria:

Operating revenues: Operating revenues include activities that have the characteristics of exchange transactions, such as (1) student tuition and fees, net of scholarship allowances, (2) sales and services of auxiliary enterprises, and (3) some federal, state and local grants and contracts.

Non-operating revenues: Non-operating revenues include activities that have the characteristics of non-exchange transactions, such as gifts and contributions, and other revenue sources that are defined as non-operating revenues by GASB No. 9, "Reporting Cash Flows of Proprietary and Nonexpendable Trust Funds and Government Entities That Use Proprietary Fund Accounting" and GASB No. 34, such as state appropriations, federal Pell grants, the local property tax levy and investment income.

Operating expenses: Operating expenses includes those expenses that are characteristic of exchange transactions, such as (1) functional expenses (instruction, instructional resources, student services, etc.), (2) depreciation, and (3) student aid, which is the excess of expenses over scholarship allowances. These expenses are incurred in the general operations of the College.

Non-operating expenses: Non-operating expenses include interest expense incurred on long-term debt and loss on sale of capital assets.

#### T. NET POSITION

Net position is classified according to restrictions on the availability of assets for satisfaction of District obligations.

Net investment in capital assets: Amount of capital assets, net of accumulated depreciation/amortization, and capital related deferred outflows of resources less outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets and any capital related deferred inflows of resources.

Restricted net position: Amount of net position that is subject to restrictions that are imposed by 1) external groups, such as creditors, grantors, contributors or laws or regulations of other governments or 2) law through constitutional provisions or enabling legislation.

Unrestricted net position: Net position that is neither classified as restricted nor as net investment in capital assets. These resources are used for transactions relating to the educational and general operations of the District and may be used at the discretion of the governing board to meet current expenses for any purpose. These resources also include auxiliary enterprises, which are substantially self-supporting activities that provide services for students, faculty, and staff.

When an expense is incurred that can be paid using either restricted or unrestricted resources, the District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

Total cash and investments	<u>\$33,399,497</u>	<u>\$32,667,497</u>

#### Fair Value Measurements

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant observable inputs; Level 3 inputs are significant unobservable inputs.

Total investments by fair value levels	<u>\$1,114,516</u>	<u>\$0</u>	<u>\$1,114,516</u>	<u>\$0</u>

Certificates of deposit classified in Level 2 of the fair value hierarchy were valued using market prices for similar assets in active markets. Municipal bonds, U.S. agency securities and commercial paper classified in Level 2 were valued using price of comparable securities and other observable inputs.

#### Investment in Wisconsin Local Government Investment Pool

The District has investments in the Wisconsin Local Government Investment Pool (LGIP) of \$16,013,541 for 2025 and \$15,615,892 for 2024. The LGIP is part of the State Investment Fund (SIF), and is managed by the State of Wisconsin Investment Board. The SIF is not registered with the Securities and Exchange Commission, but operates under the statutory authority of Wisconsin Chapter 25. SIF pool shares are bought and redeemed at \$1 based on amortized cost of the investments in the SIF. Participants in the LGIP have the right to withdraw their funds in total on one day's notice. The SIF report the fair value of its underlying assets annually. At June 30, 2025 and 2024, the fair value of the District's share of the LGIP's assets was substantially equal to the carrying value.

#### Deposit and Investment Risk

Deposits and investments of the District are subject to various risks. Presented below is a discussion of the specific risks and the District's policy related to the risk.

**Custodial Credit Risk:** Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. Wisconsin statutes require repurchase agreements to be fully collateralized by bonds or securities issued or guaranteed by the federal government or its instrumentalities. The District does not have an additional custodial credit risk policy.

## NOTES TO FINANCIAL STATEMENTS June 30, 2025 and 2024

### NOTE 2 – CASH AND INVESTMENTS (continued)

Deposits with financial institutions within the State of Wisconsin are insured by the Federal Deposit Insurance Corporation (FDIC) in the amount of \$250,000 for time and savings deposits and \$250,000 for demand deposits per official custodian per insured depository institution. Deposits with financial institutions located outside the State of Wisconsin are insured by the FDIC in the amount of \$250,000 per official custodian per depository institution. Also, the State of Wisconsin has a State Guarantee Fund which provides a maximum of \$400,000 per public depository above the amount provided by an agency of the U.S. Government. However, due to the relatively small size of the State Guarantee Fund in relation to the Fund's total coverage, total recovery of insured losses may not be available.

As of June 30, 2025 and 2024, the District had \$0 and \$48, respectively, exposed to custodial credit risk.

*Credit Risk:* Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Wisconsin statutes limit investments in securities to the top two ratings assigned by nationally recognized statistical rating organizations. Following is the actual rating as of year-end for each investment type. U.S. Treasury investments represent the portion of U.S. agency securities that are exempt from disclosure.

Certificates of deposit	\$ 350,000	\$ 0	\$ 0	\$ 0	\$ 350,000
Money market funds	8,497,255	0	0	0	8,497,255

	<u>\$ 32,089,976</u>	<u>\$ 0</u>	<u>\$ 740,725</u>	<u>\$ 0</u>	<u>\$ 31,349,251</u>

*Concentration of Credit Risk:* This represents the risk of loss attributed to the amount invested in any one issuer. The District's investment policy minimizes credit risk by limiting investments to the low risk investments where the main objective is safety or preservation of capital. The District did not hold investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represented 5% or more of total District investments as of June 30, 2025.

Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represents 5% or more of total District investments as of June 30, 2024 were none.

## NOTES TO FINANCIAL STATEMENTS June 30, 2025 and 2024

### NOTE 2 – CASH AND INVESTMENTS (continued)

*Interest Rate Risk:* Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates.

The District's investment policy applies to all transactions involving the financial assets and related activity of all of its funds. Excess funds are to be managed or invested according to the following objectives in order of priority:

- (1) Safety of principal
- (2) Maintenance of sufficient liquidity to meet immediate payment requirements including payroll, accounts payable and debt service
- (3) Obtain the highest possible rate of return consistent with safety of principal and liquidity.

Investments allowed under the policy are the same as those permitted under Wisconsin Statute 66.0603. The District Board designates as district public depositories all banks and savings and loans and loan associations in the state, the Local Government Investment Fund, or the Wisconsin Investment Series Cooperative.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity as of June 30:

		2025			
		Investment Maturities (in months)			
	Fair Value	12 Months or Less	13 to 24 Months	25 to 60 Months	More Than 60 Months

The District had realized gain on investments of \$1,050 for 2025 and realized gain of \$0 for 2024. Unrealized loss on investments amounted to \$85,199 in 2025 and unrealized gains were \$99,358 for 2024. The calculation of realized gains and losses is independent of the calculation of the change in the fair value of investments. Realized gains and losses of the current period include unrealized amounts from the prior period.

Total	<u>\$ 32,900,000</u>	<u>\$ 5,134,194</u>	<u>\$ 38,034,194</u>

All general obligation debt is backed by the full faith and credit of the District. None of the District's assets are pledged as collateral. Bonds and notes payable will be retired by future property tax levies.

Chapter 67.03(1) of the Wisconsin State Statutes limits general obligation debt of the District to 5 percent of the equalized value of the taxable property in the district. This limit was \$1,270,724,744 as of June 30, 2025 and the District's outstanding general obligation debt (net of \$1,717,003 available to pay principal and interest) was \$31,182,997. For June 30, 2024, this limit was \$1,167,115,882 and the District's outstanding general obligation debt (net of \$1,595,391 available to pay principal and interest) was \$31,259,609. Chapter 67.03(9) Wisconsin State Statutes limits bonded indebtedness of the District to 2 percent of the equalized value of taxable property in the district. This limit was \$508,289,898 as of June 30, 2025, and the District had no outstanding bonds. For June 30, 2024, this limit was \$466,846,353 and the District had no outstanding bonds.

Lease liability consisted of the following as of June 30, 2025 and 2024:

### NOTE 5 – PENSION

---

**Plan Description.** The WRS is a cost-sharing multiple-employer defined benefit pension plan. WRS benefits and other plan provisions are established by Chapter 40 of the Wisconsin Statutes. Benefit terms may only be modified by the legislature. The retirement system is administered by the Wisconsin Department of Employee Trust Funds (ETF). The system provides coverage to all eligible State of Wisconsin, local government, and other public employees. All employees, initially employed by a participating WRS employer on or after July 1, 2011, and expected to work at least 1200 hours a year (880 hours for teachers and school district educational support employees) and expected to be employed for at least one year from employee's date of hire are eligible to participate in the WRS.

ETF issues a standalone Annual Comprehensive Financial Report (ACFR), which can be found at <https://etf.wi.gov/about-etf/reports-and-studies/financial-reports-and-statements>.

Additionally, ETF issued a standalone Wisconsin Retirement System Financial Report, which can also be found using the link above.

**Vesting.** For employees beginning participation on or after January 1, 1990, and no longer actively employed on or after April 24, 1998, creditable service in each of five years is required for eligibility for a retirement annuity. Participants employed prior to 1990 and on or after April 24, 1998, and prior to July 1, 2011, are immediately vested. Participants who initially became WRS eligible on or after July 1, 2011, must have five years of creditable service to be vested.

**Benefits provided.** Employees who retire at or after age 65 (54 for protective occupation employees, 62 for elected officials and executive service retirement plan participants, if hired on or before 12/31/2016) are entitled to a retirement benefit based on a formula factor, their final average earnings, and creditable service.

Final average earnings is the average of the participant's three highest annual earnings periods. Creditable service includes current service and prior service for which a participant received earnings and made contributions as required. Creditable service also includes creditable military service. The retirement benefit will be calculated as a money purchase benefit based on the employee's contributions plus matching employer's contributions, with interest, if that benefit is higher than the formula benefit.

## NOTES TO FINANCIAL STATEMENTS June 30, 2025 and 2024

### NOTE 5 – PENSION (continued)

Vested participants may retire at or after age 55 (50 for protective occupations) and receive an actuarially-reduced benefit. Participants terminating covered employment prior to eligibility for an annuity may either receive employee-required contributions plus interest as a separation benefit or leave contributions on deposit and defer application until eligible to receive a retirement benefit.

The WRS also provides death and disability benefits for employees.

**Post-Retirement Adjustments.** The Employee Trust Funds Board may periodically adjust annuity payments from the retirement system based on annual investment performance in accordance with s. 40.27, Wis. Stat. An increase (or decrease) in annuity payments may result when investment gains (losses), together with other actuarial experience factors, create a surplus (shortfall) in the reserves, as determined by the system's consulting actuary. Annuity increases are not based on cost of living or other similar factors. For Core annuities, decreases may be applied only to previously granted increases. By law, Core annuities cannot be reduced to an amount below the original, guaranteed amount (the "floor") set at retirement. The Core and Variable annuity adjustments granted during recent years are as follows:

<u>Year</u>	<u>Core Fund Adjustment</u>	<u>Variable Fund Adjustment</u>
2015	2.9	2.0
2016	0.5	(5.0)
2017	2.0	4.0
2018	2.4	17.0
2019	0.0	(10.0)
2020	1.7	21.0
2021	5.1	13.0
2022	7.4	15.0
2023	1.6	(21.0)
2024	3.6	15.0

**Contributions.** Required contributions are determined by an annual actuarial valuation in accordance with Chapter 40 of the Wisconsin Statutes. The employee required contribution is one-half of the actuarially determined contribution rate for general category employees, including teachers, executives and elected officials. Starting on January 1, 2016, the executives and elected officials category was merged into the general employee category. Required contributions for protective employees are the same rate as general employees. Employers are required to contribute the remainder of the actuarially determined contribution rate. The employer may not pay the employee required contribution unless provided for by an existing collective bargaining agreement.

The District's contributions to the pension plan were \$1,246,061 and \$1,263,361 for the years ended June 30, 2025 and 2024, respectively.

Contribution rates as of June 30, 2025 and 2024 are:

<u>Employee Category</u>	<u>2025</u>		<u>2024</u>	
	<u>Employee</u>	<u>Employer</u>	<u>Employee</u>	<u>Employer</u>

### NOTE 5 – PENSION (continued)

#### ***Pension Liability (Asset), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions***

At June 30, 2025 and 2024, the District reported a net pension liability of \$1,568,578 and \$1,554,760, respectively, for its proportionate share of the WRS net pension liability (asset). The 2025 WRS net pension liability (asset) was measured as of December 31, 2024, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2023, rolled forward to December 31, 2024. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The 2024 WRS net pension liability (asset) was measured as of December 31, 2023, and the total pension liability used to calculate the net pension liability (asset) was determined by an actuarial valuation as of December 31, 2023, rolled forward to December 31, 2024. No material changes in assumptions or benefit terms occurred between the actuarial valuation date and the measurement date. The District's proportion of the net pension liability (asset) was based on the District's share of contributions to the pension plan relative to the contributions of all participating employers. At December 31, 2024, the District's proportion was 0.09546075%, which was a decrease of 0.00910973% from its proportion measured as of December 31, 2023.

For the year ended June 30, 2025, the District recognized pension expense of \$2,131,785 and for the year ended June 30, 2024 the District recognized pension expense of \$1,065,256.

At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$4,871,293	\$4,577,487
Net differences between projected and actual earnings on pension plan investments	2,383,539	0

Employer contributions subsequent to the measurement date	628,300	0
Total	\$8,462,706	\$4,578,031

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$6,268,776	\$8,303,034
Net differences between projected and actual earnings on pension plan investments	5,418,088	0

### NOTE 5 – PENSION (continued)

\$628,300 reported as deferred outflows related to pension at June 30, 2025, resulting from the College's contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ended June 30, 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense (revenue) as follows:

Year ended June 30:	Revenue
2026	\$992,531
2027	3,284,546
2028	(781,499)
2029	(239,204)
	\$3,256,374

**Actuarial assumptions.** The total pension liability at December 31, 2024 was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Valuation Date	December 31, 2023
Measurement Date of Net Pension Liability (Asset)	December 31, 2024
Experience Study:	January 1, 2021-December 31, 2023 Published November 19, 2024
Actuarial Cost Method	Entry Age Normal
Asset Valuation Method	Fair Value
Long-Term Expected Rate of Return	6.8%
Discount Rate	6.8%
Salary Increases:	
Inflation	3.0%
Seniority/Merit	0.1% - 5.7%
Mortality	2020 WRS Experience Mortality Table
Post-retirement Adjustments*	1.7%

\* No post-retirement adjustment is guaranteed. Actual adjustments are based on recognized investment return, actuarial experience and other factors. 1.7% is the assumed annual adjustment based on the investment return assumption and the post-retirement discount rate. Includes the impact of known Market Recognition Account deferred gains/losses on the liability for dividend payments.

Actuarial assumptions are based upon an experience study conducted in 2024 that covered a three-year period from January 1, 2021 to December 31, 2023. Based on this experience study, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including seniority (merit) and separation rates. The Total Pension Liability for December 31, 2024 is based upon a roll-forward of the liability calculated from the December 31, 2023 actuarial valuation.

**Long-term expected Return on Plan Assets.** The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

#### Asset Allocation Targets and Expected Returns<sup>1</sup>

As of December 31, 2024

Core Fund Asset Class	Asset Allocation %	Long-Term Expected Nominal Rate of Return %	Long-Term Expected Real Rate of Return % <sup>2</sup>
Public Equity	38%	7.0%	4.3%
Public Fixed Income	27	6.1	3.4
Private Equity/ Debt	20	9.5	6.7
Inflation Sensitive	19	4.8	2.1
Real Estate	8	6.5	3.8
Leverage	-12	3.7	1.1
Total Core Fund <sup>3</sup>	100%	7.5%	4.8%
<b>Variable Fund Asset Class</b>			
U.S. Equities	70	6.5	3.8
International Equities	30	7.4	4.7
Total Variable Fund	100%	6.9	4.2

<sup>1</sup>Asset Allocations are managed within established ranges; target percentages may differ from actual monthly allocations.

<sup>2</sup>New England Pension Consultants Long Term US CPI (Inflation) Forecast: 2.7%.

<sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 12% policy leverage is used, subject to an allowable range of up to 20%.

<sup>3</sup>The investment policy used for the Core Fund involves reducing equity exposure by leveraging lower-volatility assets, such as fixed income securities. This results in an asset allocation beyond 100%. Currently, an asset allocation target of 15% policy leverage is used, subject to an allowable range of up to 20%.

**Single Discount rate.** A single discount rate of 6.8% was used to measure the Total Pension Liability for the current and prior year. The discount rate is based on the expected rate of return on pension plan investments of 6.8% and a municipal bond rate of 4.08% (Source: "20-Bond GO Index" is the Bond Buyer Index, general obligation, 20 years to maturity, mixed quality as of December 31, 2024. In describing this index, the Bond Buyer notes that the bonds' average quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard and Poor's Corp.'s AA.). Because of the unique structure of WRS, the 6.8% expected rate of return implies that a dividend of approximately 1.7% will always be paid. For purposes of the single discount rate, it was assumed that the dividend would always be paid. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments (including expected dividends) of current plan members. Therefore, the municipal bond rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

### NOTE 6 – OTHER POSTRETIREMENT BENEFITS

---

**Plan Description** The Plan is a single-employer defined benefit postemployment benefit plan that covers retired employees of the District. Management and support employees hired prior to July 1, 2013 and faculty employees hired prior to July 1, 2014, who are enrolled in the District's plans effective on the date of retirement and met the age and service requirements shown below on or before June 30, 2024, were eligible for postretirement benefits. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

Age and service requirements are as follows:

Age	Minimum Years of Service
61+	10
60	15
59	20
58	25
57	30

**Benefits Provided** The District provides health, dental and life insurance benefits to eligible full-time employees and their spouses through the District's group plans from retirement until Medicare eligibility. The medical plan provides comprehensive major medical benefits and prescription drug benefits. In event of the retiree's death, spousal coverage ceases.

**Employees Covered by Benefit Terms** At June 30, 2023, the most recent actuarial valuation date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	35
Active employees	153
	<u>188</u>

**Contributions** Contribution requirements are based on District policy. Benefits are paid by the District, up to the maximum amount it pays for active employees. As of June 30, 2025, the District paid 80% of the health premium, 86% of the dental premium and 100% of the life insurance premium. Some retired participants have higher college premium payment rates based on their retirement date.

### Total OPEB Liability

The District's total OPEB liability at June 30, 2025 was measured as of June 30, 2024, and was determined by an actuarial valuation as of June 30, 2023 rolled forward to June 30, 2024.

Health care cost trend rates:	7.0% for 2024 decreasing to 6.5%, then decreasing by 0.1% per year down to 4.5%, then level thereafter.
Dental cost trend rates:	level at 4.5%
Mortality:	2020 WRS Experience Tables for Active Employees and Health Retirees projected with mortality improvements using the fully generational MP-2021 projection scale from a base year of 2010.

Actuarial assumptions for June 30, 2024 and June 30, 2023 valuations are based upon an experience study conducted in 2021 using the Wisconsin Retirement System (WRS) experience from 2018 - 2020.

**Discount Rate.** A discount rate of 4.21% and 4.13% was used to measure the total OPEB liability at June 30, 2024 and 2023, respectively. The 2024 discount rate and 2023 discount rate are based upon the S&P Municipal Bond 20 Year High Grade Index as of the week of the measurement date. Implicit in the discount rate for 2024 and 2023 is an assumed rate of inflation of 2.5%.

All other assumptions and methods remained unchanged from the valuation performed as of June 30, 2023 which was used to determine the OPEB liability at June 30, 2023 and rolled forward to June 30, 2024.

#### **OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the years ended June 30, 2025 and 2024, the District recognized collective OPEB expense of (\$94,445) and \$367,066, respectively.

At June 30, 2025, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$850,973	\$92,453
Changes in assumptions	47,041	44,861
District contributions subsequent to the measurement date	451,661	0
Total	<u>\$1,349,675</u>	<u>\$137,314</u>

At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$1,127,081	\$0
Changes in assumptions	65,200	56,773

## NOTES TO FINANCIAL STATEMENTS June 30, 2025 and 2024

### NOTE 7 – LEASES

#### Lease – Lessor

The District is the lessor of excess capacity on its educational broadband services channels under a non-cancellable lease expiring in 2027, renewable for one additional ten-year term. Minimum future rental payments to be received under the lease at June 30, 2025 for each of the next five years and in five-year increments thereafter are as follows:

Year ending June 30,	Total Payments	Principal	Interest
2026	271,452	262,074	9,378
2027	280,548	271,836	8,712
2028	289,968	281,948	8,020
2029	299,724	292,421	7,303
2030	309,816	303,255	6,561
2031-2035	1,713,228	1,692,578	20,650
2036-2037	769,272	767,235	2,037
Total	<u>\$ 3,934,008</u>	<u>\$ 3,871,347</u>	<u>\$ 62,661</u>

The excess capacity of the broadband services channels is not recognized as a capital asset of the District and therefore has no carrying value. The interest rate assumed to be charged by the District is 0.25%, its estimated annual return on investments. Inflows of resources under the agreement amounted to \$252,636 and \$243,520 for the years ended June 30, 2025 and 2024, respectively.

### NOTE 8 – EXPENSE CLASSIFICATION

### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2025 and 2024

---

#### **NOTE 9 – JOINT VENTURE - WISPALS**

---

The District implemented a computerized library database through a joint venture with Gateway, Waukesha County, and Moraine Park Technical Colleges by forming the Wisconsin Public Access Library System (WisPALS) in the fall of 1997. WisPALS is governed by the colleges' presidents and librarians with each college having an equal vote. Initially, through the joint venture each college owned one-fifth of the computer hardware and software that was housed at WCTC's Pewaukee campus. Since 2015, WisPALS has been using the project management services and online resources of the Wisconsin Library System and, therefore, has no capital investment. The operating costs of WisPALS are shared equally by the colleges.

The District's share of the operating costs amounted to \$9,091 and \$9,985 for the years ended June 30, 2025 and 2024, respectively, in the general fund.

As the operating costs of WisPALS are funded in full by the participating colleges, there is no change in fund balance for the joint venture for the year ended June 30, 2025. WisPALS has no joint venture debt outstanding.

The WisPALS financial statements can be obtained through Wisconsin Library Service, 1360 Regent Street #212, Madison, WI 53715.

#### **NOTE 10 – JOINT VENTURE - WILM**

---

Lakeshore College is also part of the Wisconsin Indianhead, Lakeshore and Mid-State Consortium (WILM), which was formed under Sec. 66.0301 and Chapter 38 of the Wisconsin Statutes. The purpose of the consortium is to develop, procure, enhance and manage a customer-focused, state-of-the-art environment for performing administrative business services for consortium members. The District is the management agent for the WILM Consortium. The District's share of the operating costs amounted to \$534,183 and \$588,619 for the years ended June 30, 2025 and 2024, respectively. The District's share of the capital costs for the year ended June 30, 2025 and 2024 were \$0 and \$0, respectively.

The WILM financial statements can be obtained through Lakeshore Technical College District, 1290 North Avenue, Cleveland, WI 53015.

### NOTE 12 – SELECT UPCOMING ACCOUNTING PRONOUNCEMENTS AND CURRENT YEAR IMPLEMENTATIONS

---

The Governmental Accounting Standards Board (GASB) has approved the following:

- Statement No. 103, *Financial Reporting Model Improvements*
- Statement No. 104, *Disclosure of Certain Capital Assets*

Adoption of these statements, as they become effective, may restate portions of these financial statements.

The District adopted GASB Statement No. 101, *Compensated Absences*, during the fiscal year ended June 30, 2025. GASB 101 updated the recognition and measurement guidance for compensated absences, as well as amended the existing requirement to disclose the gross increases and decreases in a liability for compensated absences to allow governments to disclose only the net change in the liability. Adoption of this statement did not require restatement as the amount calculated was not materially impacted.

The District adopted GASB Statement No. 102, *Certain Risk Disclosures*, during the fiscal year ended June 30, 2025. GASB 102 provides users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. Adoption of this statement had no impact on the financial statements.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

For the fiscal year ended June 30, 2025

---

### (1) Wisconsin Retirement System

- a. There were no changes of benefit terms for any participating employer in WRS.
- b. Based on a three-year experience study conducted in 2024 covering January 1, 2021 through December 31, 2023, actuarial assumptions used to measure the Total Pension Liability changed from prior year, including seniority (merit) rate increasing the upper range from 5.6% to 5.7%.

Based on a three-year experience study conducted in 2021 covering January 1, 2018 through December 31, 2020, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year ended December 31, 2021, including the following:

- Lowering the long-term expected rate of return from 7.0% to 6.8%
- Lowering the discount rate from 7.0% to 6.8%
- Lowering the price inflation rate from 2.5% to 2.4%
- Lowering the post-retirement adjustments from 1.9% to 1.7%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2018 Mortality Table to the 2020 WRS Experience Mortality Table.

Based on a three-year experience study conducted in 2018 covering January 1, 2015 through December 31, 2017, the ETF Board adopted assumption changes that were used to measure the total pension liability beginning with the year-ended December 31, 2018, including the following:

- Lowering the long-term expected rate of return from 7.2% to 7.0%
- Lowering the discount rate from 7.2% to 7.0%
- Lowering the wage inflation rate from 3.2% to 3.0%
- Lowering the price inflation rate from 2.7% to 2.5%
- Lowering the post-retirement adjustments from 2.1% to 1.9%
- Mortality assumptions were changed to reflect updated trends by transitioning from the Wisconsin 2012 Mortality Table to the Wisconsin 2018 Mortality Table.

### (2) Other Postemployment Benefits

- a. The District implemented GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for the fiscal year ended June 30, 2018. Information for prior years is not available.
- b. No assets have been accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

## **SUPPLEMENTARY INFORMATION**

The following supplementary information is provided to document the District's compliance with budgetary requirements. This accountability is an essential requirement to maintain public trust. The method of accounting used for budgetary compliance monitoring is substantially different from the method of preparing the basic financial statements of the District. At the end of this section is a reconciliation between the two methods.

## **GENERAL FUND**

The general fund is the primary operating fund of the District and its accounts reflect all financial activity not accounted for in another fund.

## **SPECIAL REVENUE FUNDS**

Special revenue funds are used to account for the proceeds of specific revenue sources (other than debt service or major capital projects) that are restricted to expenditures for designated purposes because of the legal or regulatory provisions. The District has two special revenue funds:

Operating Fund – The operating fund is used to account for the proceeds from specific revenue sources other than non-operating fund that are legally restricted as to expenditures for specific purposes.

Non-aidable Fund – The non-aidable fund is used to account for assets held by the District, primarily for student aids and other student activities.

## **ENTERPRISE FUND**

The enterprise fund is used to account for ongoing activities which are similar to those often found in the private sector. Their measurement focus is based upon determination of net income. The operations of food service, bookstore, childcare, and other activities which complement the basic educational objectives of the District (instructional related resale accounts and seminar activity) are accounted for in the enterprise fund. Services are provided primarily through user charges.

#### **Budgets and Budgetary Accounting**

The District's fund structure used in preparing the basic financial statements is different than the fund structure used for budgetary accounting. Annual budgets are adopted for all funds in accordance with the requirements of the Wisconsin Technical College System Board. The District follows the procedures listed below in adopting annual budgets for all funds in accordance with legal requirements.

- Budgets are developed within the established parameters and guidelines.
- Public hearings are conducted on the proposed budget prior to District Board approval.
- Prior to July 1, the budget is legally enacted through approval by the District Board.
- Budget amendments made during the year are legally authorized by the District Board. Budget transfers (between funds and functional areas within funds) and changes in budgeted revenues and expenditures (appropriations) require approval by two-thirds of the entire membership of the Board and require publishing a Class I public notice in the District's official newspaper within 10 days according to Wisconsin Statutes.
- Management exercises control over budgeted expenditures by fund and function as presented in the accompanying financial statements. Expenditures, by fund and function, may not exceed funds available or appropriated. Unused appropriations lapse at year end.

Formal budgetary integration is employed as a planning device for all funds. The District adopts an annual operating budget that is prepared on a different basis from the basic financial statements. The budget differs from GAAP by recognizing encumbrances as expenditures. Also, the budget does not incorporate changes related to GASB Statement Nos. 34, 35, 37, 38, 45, 68, 71 and 75.

**NOTE:**

(A ) Due to varying assessment ratios to full market value used in municipalities, all underlying tax districts, such as the technical colleges, are required to use equalized value for levying property taxes. Equalized value, define by state statute, is the legal market value determined by Wisconsin Department of Revenue Bureau of Property Tax. These amounts are reduced by Tax Incremental District value increments for apportioning the college's levy. Source: Wisconsin Department of Revenue

(B ) This schedule contains detailed information for the counties of Manitowoc and Sheboygan. Together they comprise 97% of the District's equalized valuation.

(C ) Property tax rates are shown per \$1,000 of equalized value.

(D ) 2023 Wisconsin Act 12 exempted personal property from taxation and created an additional personal property aid payment beginning with assessments as of January 1, 2024.

(b) The fiscal year represents the year that the taxes are collected.

(c) The operational property tax levies for the governmental-type funds. For taxes levied prior to June 30, 2013, this rate could not exceed \$1.50. In March 2015, Wisconsin Act 145 was enacted that allocated property tax relief aid to the technical colleges and reduced the amount of their taxes levied.

(d) Overlapping rate are those of local and county governments that apply to property owners with the LTC district. Not all overlapping rates apply to all property owners with the LTC district. For example, the county rate is made up of the rates for Manitowoc, Sheboygan and parts of Ozaukee and Calumet counties. The individual county rates apply only to the property owners within each of these counties. These overlapping rates are an average of the rates for each municipality making up the detail in this column since each governmental unit can have a different rate.

Notes:

- (a) Under Wisconsin law, personal property taxes and certain installment real estate taxes are collected by city, village, and town treasurers or clerks, who then make settlement with the other taxing units, such as the county, LTC, and local schools. Settlements are due from the municipality by the 15th of the month following the due date based on the municipality's payment plan. Certain installment real estate taxes and delinquent taxes are collected by the county treasurer who then makes settlement with the city, village and town treasurers and other taxing units before retaining any for county purposes. In practice, any delinquent real estate taxes are withheld from the county's share. Therefore, LTC receives 100% of its levy upon receipt of settlement from the county treasurers, although the taxes collected as a percentage of total tax levy will vary in any given fiscal year due to timing of payments received from municipalities.

**Notes:**

- (1) Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses located in the District's boundaries. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping government.
- (2) The percentage of overlapping debt applicable to the District is the equalized property value of property of the overlapping government located in Lakeshore's district as a percentage of total equalized value of all property for the overlapping government.
- (3) Source –Wisconsin Department of Revenue. Information provided by each municipal entity through publicly available disclosure documents available on EMMA.msrb.org and the Wisconsin Department of Public Instruction and direct inquiries.

### Notes:

- (a) Student enrollment by program represents the duplicated count of citizens enrolled in district courses.
- (b) Total student enrollment is the unduplicated count of all students.
- (c) A full-time equivalent (FTE) is basically equal to 30 annual student credits based on a mathematical calculation which varies somewhat by program and which is subject to state approval and audit of students and course data.
- (d) Graduate follow-up statistics are based on the surveys of district graduates approximately six months after graduation, therefore current fiscal year data is not yet available.
