

Policy Title Records Management	Original Adoption Date 12/04/2013	Policy Number FS-681
Responsible College Division/Department Library	Responsible College Manager Title Vice President of Student Success	
Policy Statement Lakeshore College will comply with current record keeping laws and policies as outlined by the various federal and state regulatory agencies, departments, and the Wisconsin Public Records and Forms Board. Lakeshore will provide periodic guidance on records management compliance.		
Reason for Policy Records management is the systematic control of records, in whatever form they exist, through their life cycle. The creation, use, storage, protection, and disposal of Lakeshore College’s recorded business activities are of major concern to the college. Since all areas of the college generate records, it is important that all employees consistently manage the complete lifecycle of records, from creation to retention and destruction, in all formats and media now or hereafter developed.
